SPEAKS ON STEPS OF BURNED CHURCH

Rev. J. M. Johnson Of Elgin, Ill., Uses Impromptu Dais For Pulpit

Chimes were summoning the people of Elgin to worship Sunday morning when a wisp of smoke, followed by a sheet of flame, burst from the Episcopal Church of the Redeemer, located in what is known as the "church district." An alarm was turned in, but by the time the engines arrived an excited volunteer brigade, with prayer books under their arms, were rushing the valuable appointments of the church to safety. The blaze was not suppressed until the organ had been destroyed.

The Rev. James Madison Johnson, rector of the church, made an impromptu dais of the front steps and conducted a twenty minute service in the open air, after the fire was extinguished.

All other Protestant churches in Elgin immediately offered their chapels for the burned out congregation to hold services at night. The invitation of the Holy Trinity English Lutheran church was accepted.

The Episcopal Church of the Redeemer is one of the first churches in the United States to use newspapers and periodicals as an advertising medium to quicken religious interest. It has just completed an addition, which was built by the hands of its congregation. The damage is estimated at between \$1,000 and \$5,000, which is covered by insurance.—Chicago Tribune.

Rev. Johnson was formerly pastor of St. Augustine's church in this city and has a cottage on Moen's lake, where he and his family spend each summer.

REGENTS' ACTION PLEASES LUTHER

County Agent-Supervisor Congratulates City On New Normal School

Mr. F. A. Lowell, Rhinelander, Wis. Dear Friend Lowell:—

Hooray! Congratulations upon the action of the Board of Normal Regents. I am especially glad that this has come through as you will recall I was with you upon a committee which went to Madison to try to persuade the legislature to vote a normal for Rhinelander. I think that is another evidence that Rhinelander is the coming town of the north-east country. The location of the first hygienic laboratory in Rhinelander showed what the people think about Rhinelander as a central location for state development. To my mind the drawbacks lies in the failure of the men of Rhinelander themselves to appreciate the natural advantages of Rhinelander and go to it with might and main to take advantage of them. Roads are going to help and I think that the merchants ought to try out trade days and other things to bring people from distances to come to Rhinelander. People ought to be taught to know that Rhinelander is a natural center. I think that it would be possible by good community advertising along the Soo line away out east and west to get people to Rhinelander for their Christmas shopping. Then other occasions might be got up. Get people to come once and then keep them coming. That is the thing. The new hotel is going to help. A considerable improvement could be made in most of the hotels to make things more cheerful for Rhinelander visitors.

I am wondering what the town will go after next. Something ought to be thought up and then keep pegging until it comes through. That is the only way. I was glad to be able to help arrange the itinerary of the University Regents recently and make it pass through Rhinelander. I was glad to hear that Rhinelander had been decided upon as the "round-up" town for the "land clearing special." All of this indicates the view which people have of the control and vital location of the town. I have said many times that Rhinelander could be a good convention town. But there again the hotels can help better than they are doing. Cleaner, brighter and better places would just about fix this part up.

Well, keep pegging, at it. Go out after everything which shows up. And good luck to you all in the endeavor.

Yours very truly  
E. L. LUTHER.

FOURTH ANNUAL POTATO SHOW IS BIG EVENT

The big show, Oneida County's fourth annual potato exhibit, is now on at the Armory. There is an elegant exhibition of tubers, over one hundred entries, representing every variety having been made.

Farmers from all parts of the county are attending the show.

To Mr. Juday, Mr. Woodruff, and the Advancement Association belong the credit for the great success of the show. The quality of the exhibits show that the lessons learned at last year's show and the County Fair, as well as the instructions given by Mr. Juday in selecting show stock, have been well learned, and the number of samples exhibited prove the activity of the Advancement Association's "Boosters".

Over a hundred samples are exhibited, most of them being of surpassing excellence, well selected and well shown. It will be a comparatively easy matter to select stock from these samples which will surpass any exhibit in the state at the Eau Claire show in November.

NOTED SPEAKERS AT POTATO MEET

Program For State Convention At Eau Claire Is Nearly Complete

Nearly all arrangements have now been made for the program of the state convention of the Wisconsin Potato Growers' association to be held at Eau Claire on Nov. 21 to 23.

The work of the state association has now grown to such an extent that it will be impossible to house all the features of the convention under one roof. Special sessions have, therefore, been provided for boys' and girls' club work. A special program for work has been provided and special potato judging and scoring contest for the boys and girls has also been provided.

The state association, in co-operation with the Wisconsin Experiment station and leading potato growers of the state, has completed arrangements to give away a limited amount of standard seed stock to the boys and girls at the convention who show proficiency in judging. The state association has also arranged to give away a complete set of standard Wisconsin potatoes to all school teachers of Wisconsin who attended the convention. This material with score cards and complete outlines on the study of potato diseases and potato varieties will be furnished at the convention and will be available to take directly back to Wisconsin schools.

The convention has secured Mr. Lou D. Sweet, of Denver, Colorado, president of the National Potato association of America, for two days. Mr. Sweet is an extensive potato grower in Colorado, handles several hundred acres each year. He is a man of wide travel and an excellent speaker and is well posted on all the lines referring to commercial potato growing. Mr. Sweet has just completed arrangements for securing 1,000 feet of film for moving pictures, illustrating his cultural and harvesting methods and it is quite probable this material will be available for the Wisconsin convention.

Mr. E. P. Miller, of the Albert Miller & Company, of Chicago, will lead in the discussion on potato marketing. The convention has also secured Mr. Charles J. Brand, of the office of Rural Markets, United States Department of Agriculture. It is expected that a large number of Wisconsin warehouse men will be in attendance to assist in the discussion.

Another session of the convention will be given over to the discussion of potato scab and scurf troubles, led by Professor L. H. Jones, of the Wisconsin Experiment station. In connection with this work, a demonstration will be given showing the formalin treatment and the corrosive sublimate treatment for potato scab and black scurf. In connection with this session, a report on official seed certification work will be given. Other features of the commercial fertilizer problems under the direction of the Middle West Soil Improvement committee, of Chicago, and Dr. H. J. Wheeler, formerly dean of the Rhode Island Experiment station. Dr. Wheeler is now with the American Agricultural Chemical company and has conducted several fertilizer experiments in Wisconsin this year in connection with this work.

Representatives of the Minnesota, Iowa, Michigan and Wisconsin Experiment station will be in attendance in discussions along lines of variety standardization. Mr. O. H. Benson, of the United States Department of Agriculture, in charge of boys' and girls' club work, will give an address along the lines of this work. Special potato cooking demonstrations and special programs for women on questions relative to cooking potatoes are being arranged under the direction of the Home Economics Department of the Wisconsin College of Agriculture in co-operation with Eau Claire sources.

FRED SHORT WILL HEAD NEW SCHOOL

Ripon Man Is Engaged To Superintend Continuation Classes Here

The legislature of 1911 provided that every city of 5000 people or over should have an Industrial Board, consisting of the City Superintendent and four other members appointed by the Board of Education. The duty of this board is to provide for Continuation, Industrial, and Evening schools. Such a board has been appointed in this city, its members are: E. O. Brown, President; Wm. Eibel, Richard Larson, and W. P. Colburn, Secretary. The board has chosen Mr. Fred Short of Ripon, to head these new schools. He will arrive in the city early in November and steps will be taken at once to organize such schools as seem necessary.

The Continuation schools are for those young people between the ages of 14 and 17 who have found it necessary to withdraw from the city or parochial schools, and go to work. Such young people must attend this school for at least four hours per week for ten months or five hours per week for eight months. These four hours or five hours of attendance usually occur on one forenoon or one afternoon of each week. Such persons are released by their employers for the purpose of attending these schools.

The course of study of the Continuation school consists of English, Civics, knowledge of safety devices, and industrial work. Usually half of the day's work is devoted to classes in these subjects and the other half to work in the shop.

In most of the smaller cities the Continuation schools meet in the regular school building, using the rooms and equipment already there. Some new books and some new equipment may be needed but we shall not have to spend very much for these things.

We hope to plan some evening classes for the winter. As soon as the Continuation classes are arranged for, an opportunity will be offered to those desiring evening work to state their preference and classes in some of the subjects called for will be formed. Further information concerning these classes will be given in the near future.

Permits Required

Section 1728A of the statutes of Wisconsin says: No child between the ages of 14 and 16 shall be employed, required, suffered, or permitted to work at any time in any factory, mine, or at any gainful occupation, unless he has obtained a written permit authorizing the employment of such a child.

In order to secure such a permit, the child should apply to the City Superintendent of schools, who will if it seems best, make out an application for a permit which will be granted by the county judge. Employers should see to it that every employee has such a permit.

WAR TROPHIES ON EXHIBITION HERE

In the display window of Laugesen's clothing store, corner of Stevens and Davenport streets, is an instructive exhibit of war curios from the battle fields of Europe. This group is part of the \$100,000 collection owned by the Royal Tailors of Chicago.

Among the trophies shown in the Laugesen window is an overcoat which was worn by a French brigadier of heavy artillery, who was killed near Arras in February, 1915. A close examination of the coat reveals holes made by shrapnel. The wearer probably having been slain by a shell explosion. Blood stains are also plainly discernible on the garment.

Trousers and leggings of a German soldier, Russian, French and German headwear, sabers, canteens and various other military equipments comprise the exhibit.

GIRL TELLS AN EXCITING STORY

"An absolute falsehood," is the version of Chief of Police Straub regarding the sensational story told by a young lady of this city Tuesday to the effect that she had been dragged by an unknown man.

The girl claimed she was walking alone on the north side, a few nights ago, when a man suddenly grabbed her and bound a handkerchief saturated with chloroform across her face. She immediately lost consciousness and did not come to until the following morning when she awoke to find herself resting on a pile of logs in the mill district.

The girl's story gained rapid circulation through this city and led to the report that a strange man was nightly attacking women and girls on the north side. Why the girl should invent this exciting yarn entirely out of whole cloth is beyond the apprehension of the police.

LENROOT TONIGHT

Congressman Irvine L. Lenroot will speak in Rhinelander, Friday night, October 27, at the Armory.

Congressman Lenroot needs no introduction to the people of this city. He has long been the able representative of this district in congress and is one of northern Wisconsin's best known men. He has addressed the voters of Rhinelander on several occasions in the past. Don't miss this meeting.

SCHOOL FAIR AT ENTERPRISE

Fine Exhibits of Vegetables, Grains, Grasses, Fancy Work and Sewing

The Enterprise school, Miss Dora Zimmer, teacher, held its first School Fair last Saturday. Vegetables and grains of all kinds, fancy work and samples of school work in the different grades were on exhibit. County Representative Juday judged the agricultural products and supervising teacher, Miss Amanda Rice, Miss Hurlbutt and Miss Sparks the sewing and school work. Herman Schoeneck added greatly to the exhibit with several samples of grains and grasses which had taken first prize at the State Fair. Practically everyone in the community saw the exhibits and all were proud of their first attempt at a school fair. Next year they will have another fair and expect to greatly improve over this year.

In the evening their community club had its first meeting since last spring. The school children gave an excellent program which was followed with a talk by Mr. Juday on "Selecting Fair Exhibits." After this a lunch was served and the meeting adjourned. Miss Zimmer is certainly to be congratulated upon the fine program prepared by her school.

More schools should have School Fairs and more communities should have community club meetings. People in the farming districts should know each other better and this is the one best way to get acquainted. Different problems arising can be discussed and many things of importance worked out by a community that can not be worked individually. The community spirit should be the first consideration by every member of a community.

SECOND WRECK FOR R. A. RIEK

R. A. Riek, manager of the Rhinelander Refrigerator company, is inclined to believe that he bears a charmed life. He has been in two train wrecks, both on the same train and at the same place and has escaped from both without a scratch.

Mr. Riek was a passenger on the ill fated Northwestern limited train, which was wrecked near Manitowishewee a week ago. Two years ago he was a passenger on this train when it was ditched at the same spot, the wreck being due to some one tampering with the switch, as was the case last week.

In speaking of the recent wreck Mr. Riek said that he had just retired and had been in his berth only a few minutes when he felt a terrific jar and his trousers and other discarded wearing apparel hit him in the face. Hurriedly dressing he rushed from the car to find that part of the train had rolled down an embankment. The locomotive and tender had doubled up like a jack knife and above the escaping steam could be heard the agonizing cries of the dying fireman. Engineer Fitzgerald's body, almost unrecognizable, partly protruded from under the engine. Death was instantaneous.

The tragic scene was one which Mr. Riek declared will never be obliterated from his memory.

Mr. Riek said that had the train been running at a higher speed and the cars not been of steel construction the wreck would have claimed an appalling list of dead and injured.

LECTURE SERIES FOR CLERKS HERE

Mr. Irwin of the Extension Division of Wisconsin University will talk on salesmanship and modern business methods before the business men and clerks of this city at the city hall Friday evening. The purpose of this meeting is to organize a business men's class for a series of 6 lectures extending over a period of six weeks.

Mr. Irwin is perhaps the best known authority on salesmanship in the country today and the University has secured him at no little expense for these lectures.

Every clerk in this city should be present at this lecture, as he will learn many things to his advantage. No admission charged.

BREAD SIX CENTS IN RHINELANDER

High Cost Of Flour Forces Bakers To Advance Price Of Loaf

Bread, six cents per loaf. This is what "the staff of life" will sell for in Rhinelander after next Tuesday according to the announcement of local bakers today. The constant increase in the price of flour has made it necessary for the bakers to raise the price of five cent loaves of bread to six cents and decrease the size of the ten cent loaves.

C. D. Kirk, of Kirk's Bakery and Candy Kitchen, said today that the bakers here would have raised the price of bread a month ago but declined to do so thinking that flour would advance no higher and might possibly take a drop. This, however, has not been the case. Flour continues to steadily go up until it is now dangerously close to the ten dollar mark wholesale and may reach twelve dollars per barrel before the first of the year.

"Rhinelander bakers are among the last in the state to increase bread to six cents," stated Mr. Kirk. "We have stuck to the five cent loaf as long as we could possibly see our way clear and it now becomes necessary for us to get another cent or suspend bread baking entirely. In some of the cities in this country bread is selling at seven cents."

Cookies, doughnuts, drop cakes and other piece goods will hereafter be sold at one cent each or twelve cents per dozen. Pies will remain at fifteen cents while the price of cakes will vary according to kind and size.

Milwaukee and Minneapolis bread concerns which ship bread to several Rhinelander grocery stores have long ago ceased to make a five cent loaf. Only ten cent loaves can be had, the bakers finding that there is more money in selling a large loaf at this price than in the small loaf at six cents.

HONOR J. C. TEAL

Past Pres. Teal Aerie 359 received the appointment of Deputy Grand Worthy President this week from Grand President Rex B. Goodsell, San Bernardino, California. Mr. Teal has jurisdiction as Grand Aerie representative over northern western section of this state. He was for three years treasurer of the Wisconsin state Aerie, and has been identified with Aerie 359 in an official capacity for the past thirteen years.

BUYS OUT PARTNER

William H. Gilligan Jr. has purchased the interests of his partner, Clarence J. Wesley, in the Oneida Garage Company at 116 W. Davenport street, and is now entire owner of the business. Since June 22, Mr. Wesley, who is second lieutenant of Company L has been with his men in San Antonio, Texas.

The Oneida Garage Company since its organization a few years ago has done a good business and under the sole proprietorship of Mr. Gilligan should continue to grow and prosper.

GIVE THANKS TO SENATOR STEVENS

At a meeting of Oneida county republicans held at the court house Monday evening there was passed the following resolution extending gratitude to Senator W. T. Stevens for his excellent record in the state senate:

Resolved that we, the republicans of Oneida county assembled, express our gratitude to Senator Stevens for his splendid past services in the senate and pledge our unanimous support at the polls, November 7.

Among other business transacted at the meeting was the making of arrangements for speeches by Congressman Irvine L. Lenroot at various places throughout the county.

Mr. Lenroot will speak at Three Lakes and Sugar Camp today and at Tomahawk tonight. Friday afternoon he will speak at Cassin and Rhinelander that night.

A committee of three, consisting of E. C. Sturdevant, A. J. O'Melia and B. N. Moran, was appointed to solicit contributions to carry on the campaign in this county.

COZY THEATER REOPENS

The Cozy theater reopened to the public Monday after having been closed two weeks. Five cents is the admission fee now being charged at this theater and for this small sum some exceptionally good programs are being shown.

James Algee, proprietor of the Cozy, is at present attending to business interests in the west.

### To the Voters of the Assembly District Composed of Oneida, Forest and Florence Counties:

Having been nominated on the Democratic ticket for the office of Assemblyman at the primary election held on September 5, I hereby set forth to the voters of this district the principles upon which I stand:

1. I am a Progressive Democrat of the Woodrow Wilson class and pledge you, that if elected, to serve your interests to the best of my ability. I fully indorse the Democratic State platform and its candidates.

2. There is much that can be done in the legislature that will help build up this locality and make it, instead of a frontier section, one of the best agricultural, commercial and manufacturing districts in Wisconsin and it will be my pleasure to promote this if elected.

3. I promise you, if elected, to work for progressive legislation, lower taxes and to help lighten the burdens upon the people.

4. If elected as assemblyman, it will be my sole aim to faithfully serve the people of this district and see that they, instead of the big interests, are represented.

5. If elected I will do everything in my power toward securing an appropriation for a new state normal school for Rhinelander.

6. I am an old resident of northern Wisconsin and believe I understand the needs of the people and nothing will give me more pleasure than to receive your vote on Nov. 7th, which, I assure you, will be greatly appreciated.

Respectfully yours,

JAS. T. MURPHY,  
Monico, Wis.

We have just recently been notified by the Munsing people that the price of all Munsing underwear will advance the first of November.

While we have a large stock at the present time of all the best selling styles in Munsing wear, but with the cold weather approaching we are bound to run short on some of the styles. So we advise you to prepare NOW with "Munsingwear" suits from \$1.00 up.

Wool Dress Goods and Silks for Fall and Winter at the same old prices

No advance in price here so long as our stock lasts.

Those who have not bought their Dress Goods for this coming winter will make a great mistake in waiting. Due to the scarcity of labor and shortage of Raw Material prices are bound to climb upward.

#### CHARACTER.

A man who lives right and is right has more power in his silence than another has by his words. Character is like bells, which when touched, even accidentally, resound with sweet music.—Phillips Brooks.

#### How to Steal a Cow.

One of Daniel O'Connell's clients, who was acquitted upon a technical point of stealing a cow at night, was asked by O'Connell how he managed to steal the fattest cow in the dark.

"Why, then, I'll tell your honor the whole secret of that, sir. Whenever your honor goes to steal a cow always go on the worst night you can, for if the weather is very bad the chances are that nobody will be up to see your honor. The way you'll always know the fat cattle in the dark is by this—look at the fat cows always stand in the most exposed places, but the lean ones always go into the ditch for shelter."

#### The Rival Roses.

Perhaps the two most famous flowers in history are associated with the Temple gardens, for, according to tradition, it was in the gardens in 1492 that the two leaders plucked the red and white roses which became the badges of the rival houses of Lancaster and York.

The gardens were for centuries famous for their roses. Among the world celebrities one finds in the accounts for the expenditure on two particular trees and wonders what a perfume tree is until one remembers the custom of trimming box trees in a conical or "pyramidal" fashion—a tradition in a chronicle.

#### "It's the Cut."

An aged country rector who had an old tailor as his clerk, returning from the church one Sunday with the latter, thus addressed him:

"Thomas, I cannot think how it is that our church should be getting thinner, for I am sure I preach as well as ever I did and ought to have far more experience than I had when I first came among you."

"Indeed," replied Thomas, "I'll tell you what. Old parsons nowadays are just like old tailors, for I'm sure I sew as well as ever I did in my life, and the cloth is the same, but it's the cut, sir. Ah, it's the new cut!"—Pearson's Weekly.

Mrs. Louis Sharon, mother of Joseph Sharon, a former resident of this city, died at the home of her son, Antigo, a few days ago. Mrs. Sharon was a native of Canada and was eighty years of age. Alex. Deitoyer of this city, brother of deceased, attended the funeral.

J. H. Morgan and daughter of Rhinelander were Eagle River visitors Wednesday. A Mr. Morgan, who is the Buick dealer in this territory, drove over a handsome '17 model that attracted a good deal of admiring comment from those able to do more than look at that type of car. The Review office as usual received a call from him in token of "auld lang syne."—Eagle River Review.

### WEAK, AILING CHILD

**Made Strong By Delicious Vinol**

Lakeport, N. H.—"Our little girl 3 years of age was in a debilitated, run-down condition and had a stubborn cough so she was weak and ailing all the time. Nothing helped her until we tried Vinol. Then her appetite increased and she is strong and well, and I wish other parents of weak, delicate children would try Vinol."—Geo. A. Collins.

This is because Vinol contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates which she needed.

J. J. Heardon, Druggist, Rhinelander, Wis.

**Help the Children.**

There is nothing in all the world so important as children, nothing so interesting. If you ever wish to go in for some philanthropy, if you ever wish to be of any real use in the world, do something for children. If you ever yearn to be truly wise, study children. We can dress the sore, bandage the wounded, imprison the criminal, heal the sick and bury the dead, but there is always a chance that we can save a child. If the great army of philanthropists ever exterminate sin and pestilence, ever work out our race's salvation, it will certainly be because a little child has led them.—David Starr Jordan.

## Worth Careful Thought

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

Never sacrifice quality and healthfulness for low price.

**Tireless Talker.**

In the days of his youth Senator Blackburn of Kentucky was asked by a friend to second a duel. He consented, and at the next sunrise the parties met. It was Mr. Blackburn's duty to say the last word concerning the terms of the duel. One of the senator's colleagues recently said at a Washington dinner that, although Mr. Blackburn faithfully performed the duty, the duel never took place.

A murmur of "Why not?" went around the table at this remark.

"For a very simple reason," continued Mr. Blackburn's colleague. "When Joe finished speaking it was too dark for a duel."

**Longs Peak.**

For many years Longs peak, Colorado, was considered unclimbable. But at last a way was found through an opening in perpendicular rocks, called from its shape the Keyhole, out upon a steep slope leading from near its summit far down to a precipice upon its west side. The east side of Longs peak is a nearly sheer precipice at most 2,000 feet from the extreme top down to Chasm lake, which was the starting point of a gigantic glacier times long before man. Chasm lake, which is not difficult to reach from the valley, is one of the wildest lakes in nature. It is frozen eleven months of the year.—Argonaut.

### THE GOOD JUDGE WAS NOT SURPRISED.

HELLO, MAYOR! I THOUGHT YOU SAID IT WAS TOO STAGGY!

I WAS LIVING TOO HIGH! TAKING TOO LARGE A CHEW. NOW I'M GETTING WISE.

THAT'S THE IDEA! A SMALL CHEW LOOKS BETTER AND TASTES BETTER.

THE tip from a user of W-B CUT Chewing to a beginner is:

"If you won't take a little chew don't take any. W-B CUT isn't ordinary tobacco. It's rich tobacco—a chew as big as a regular sized wad of plug is too much of a good thing. If you really want to know what tobacco satisfaction is, tuck a little nibble of W-B into your cheek, and notice how the good tobacco taste lasts and satisfies."

"A FIGHTING REPUBLICAN"  
(By Arthur Capper, Republican Gov-  
ernor of Kansas)

LaFollette is one of the progress-  
ive leaders of the country who has  
stoutly insisted on making the  
Republican party the agency of pro-  
gressive government in this coun-  
try. All the world loves  
a fighter quite as much as it does  
a lover, and when the fighter is bat-  
tling in the cause of the people, his  
triumph is an occasion of rejoicing.

### ANOTHER TOWN IS SORE

The Normal school board of Be-  
ggs have chosen Rhinelander as the  
location of the next Normal  
school, just why they selected this  
town is a mystery, and has been a  
topic of discussion on the streets  
throughout the week. If Green Bay,  
or Antigo had been chosen, Shawano  
would have been disappointed but  
not surprised, for there would  
have been some merit in the selec-  
tion, but why Rhinelander is be-  
yond us, Shawano surely was the  
logical place, the city which put up  
by far the best argument before the  
legislative committee, and the out-  
come is a bitter disappointment to  
us. Wherein lies the blame, we are  
frank to say we do not know, so  
we will not attempt to discuss it—  
Shawano Journal.

The school pot is beginning to  
boil. The wise party chairman are  
making predictions and they are  
about as accurate as the one the  
democratic committee at Chicago  
has made. Oneida county from an  
Ohio county democrat that  
President Wilson will carry the  
county. If he does, we have a guess  
coming.

Edward F. Dithmar, Republican  
candidate for Lieutenant governor  
has served in this capacity for the  
past 2 years with honor to himself  
and his party. His ability as a pre-  
siding officer was clearly demon-  
strated in the state senate during the  
legislature. Mr. Dithmar's experi-  
ence is his still better this time  
for this important position. Vote  
for him November seventh.

### NOTE BY MAIL

There is no reason why every  
voter of the state cannot cast his  
vote at the coming election. In past  
years many who were called away  
from home on business matters  
were unable to vote. But this year  
provisions have been made, which  
enable every man who has a vote, can  
cast it. His favorite candidates,  
even if he is thousands of miles  
from home.

There is upon the state the heads of  
Wisconsin, a law relating to elec-  
tion, which is of great importance  
to the people, and the traveling  
man and all others who would  
vote in the election, must be absent  
from their election precinct on an  
election day. This law is known  
as the "Absent Voter" law, and  
provides a means, whereby the man  
who is absent from his home, pre-  
cinct on election day, may cast his  
ballot by mail and have it counted  
the same as though he went to the  
polls on election day.

Any certified voter in Wisconsin,  
who has been duly registered, whose  
business compels him to be absent  
from his home precinct on election  
day, or who expects to be absent on  
election day may vote by mail.

The people have recognized that  
Senator LaFollette has always  
trusted them and in turn they have  
trusted him, and will trust him as  
long as he has faith with them as  
he has in the past.—Merrill Herald  
Post.

Edward J. Brown is serving his  
second term as State Treasurer. His  
past record gave him a splendid  
reputation. We believe he should be  
re-elected in the coming term.  
Give him your vote November seven-  
th.

A NATIONAL MATTER  
By Wm. Allen White, Noted  
Editor and Writer

The election of a president is no  
more distinctly a national matter  
than the election of Senator La-  
Follette in Wisconsin. He is by all  
accounts the largest man in the United  
States Senate. Not once has he  
ever been up with special privilege.  
Always has he been fighting for  
more equitable economic conditions  
for the people always has he stood  
for freer and more democratic  
control of this government. The  
efficiency of the organized, ag-  
ricultural wealth and of crafty po-  
litical machinery knows LaFol-  
lette is uncompromising foe. He  
will not stop.

It will mean a triumph of  
majority and special privilege in Am-  
erica.

Richard T. Stevens is known too  
well in Oneida county to need a  
further introduction. He is again a  
candidate for re-election to the  
state senate. Mr. Stevens is alert to  
the interests of his county and his  
district. He and his father are large-  
ly responsible for the recent loca-  
tion of a state normal school site  
in Rhinelander. The least we can  
do for him is to give him the solid  
vote of Oneida county for re-elec-  
tion. Do something November seven-  
th to make Bill smile.

E. S. Campbell came over from  
Troy Lakes today, with a fine ex-  
hibit of potatoes for the potato  
show.

### WHERE OWEN STANDS

The following statement by At-  
torney General Owen was given  
at Saturday by the Republican  
State Central committee:

"I am a Progressive Republican.  
For years I have been struggling  
with thousands of others to estab-  
lish progressive leadership of the  
Republican party. In the nomi-  
nation of Mr. Hughes that conserva-  
tive has been satisfactorily aban-  
doned."

"This is the time when Progress-  
ive Republicans should take hold  
and renew party allegiance, rather  
than lend themselves to the en-  
couragement and support of basic  
and fundamental principles which they  
have always opposed. As I am not  
to acknowledge any error in my life-  
long support of the principles of a  
protective tariff I shall not desert  
my party at any time when it has  
just come into a truly progressive  
leadership."

"In supporting the straight Re-  
publican ticket in this campaign, I  
am not conscious of, and do not  
admit, the slightest abjection or  
modification of my well known pro-  
gressive views. There is an appro-  
priate time for every fight. At such  
a time, I am willing to fight and I  
have never yet been shot in the  
back."

"I have never failed to abide the  
result of a conference, convention  
or primary election in which I par-  
ticipated. If progress is to be made  
along any line by any body of men,  
the principle of majority rule must  
be recognized. He who is unwilling  
to submit to the determination of  
the majority should not partici-  
pate. In my opinion the progressive  
movement in this state will secure  
more comprehensive and enduring  
results by what is generally recog-  
nized as fair fighting. People will  
applaud a fair fight. They will not  
approve of any means condemned  
by usage, custom and tradition."

"In my opinion an independent  
candidate, no matter how popular,  
in a primary election has added im-  
pulses to the progressive movement in  
this state. All such movements, in my  
opinion, have had wide the contrary  
effect. They have not ap-  
pealed to the people's sense of fair-  
ness. I have never joined in such  
movements. I am not now persuaded  
that enduring benefits can flow there-  
from."

"While I opposed the re-nomi-  
nation of Governor Philipp, the same  
consistency that endorsed my own  
candidate nominated him. It ill  
becomes me to approve their action  
in nominating me and discredit their  
judgment in nominating him."

"I shall do no such thing. I shall  
support Governor Philipp in this  
campaign."

Irvine L. Lennort is the present  
congressman as a republican. He  
has served with distinction. He is  
without a peer in the state. He is  
a fine orator, a fine writer, and a  
good congressman. We feel the eleventh  
congressional district has a right  
to be proud of its congressman. In  
asking the voters to support Mr.  
Lennort, we point with just pride to  
his achievements in the House of  
Representatives. Give him your  
vote November seventh.

### WILLIAMS RIDICULES PHILIPP

In an address, bristling with  
pointed replies to what he called  
"the lame attempts" of Gov. Philipp  
to explain away his record during the  
past two years, Burt Williams spoke  
at Oconomowoc Friday night to sev-  
eral hundred people who braved a  
driving snow and rain to hear him.

"After vainly trying to frame up a  
satisfactory defense of his admitted  
record of measures benefiting rail-  
road and insurance companies and  
his opposition to labor measures in  
the last session of the legislature,  
the governor has now sought re-  
fuge in a discussion of the tariff in  
an effort to bamboozle and blind  
the people of this state," Mr. Wil-  
liams declared.

"It is laughable to read the efforts  
made by Gov. Philipp to defend the  
record of his administration in the  
effort made to tear down the child  
labor law in Wisconsin by permit-  
ting children to work in quarries,"  
Mr. Williams said. "The governor  
attempts to hide behind the federal  
child labor law, which would tend  
to bring some of the backward states  
on this proposition up somewhere  
near the stand that other states have  
taken and which by no means rep-  
resents the forward attitude Wis-  
consin has taken."

Mr. Williams pointed out that  
Senator Whitely, "the right-hand  
man of the governor in the assem-  
bly," voted for this effort to tear  
down the child-labor law up to the  
very last. He is on record four  
times with votes in favor of this  
bill and the governor's approval is  
illustrated by his finding for Whit-  
ely a special position at a salary of  
\$1,700."

The statement by Gov. Philipp at  
the time that the Socialists members  
of the assembly were in favor of  
this bill lowering the age at which  
children would be permitted to  
work in stone quarries was a plain  
falsification, he added as such by  
Assemblyman Weber.

The speaker then referred to At-  
torney General Owen's recent  
speeches for Gov. Philipp, and  
quoted from his speech at Black  
River Falls, just before the primary:

increased valuation, does not appeal  
to the governor as legislation that  
is other than just," Mr. Williams  
remarked.

Merlin Hull, Republican candidate  
for secretary of state, has had large  
experience as a public official and  
has done his work with skill and  
independence. He was speaker of the  
assembly in 1913, and in this  
position he showed a desire at all  
times to fearlessly do his duty. He  
should be elected November seventh  
by a handsome majority.

Walter C. Owen has served as At-  
torney General the past four years  
with honor. Mr. Owen is a keen  
lawyer, a conscientious official and  
a competent attorney general.

At the September primary, Mr.  
Owen received an overwhelming  
majority over his opponent for the  
republican nomination for attorney  
general. Do not forget him Novem-  
ber seventh.

## TRAIN IN DITCH

Traffic on the Northwestern rail-  
way was at a stand still several  
hours today on account of a freight  
train wreck about half way between  
Sault and Malvern. Three cars  
loaded with merchandise left the  
truck and are lying at the bottom of  
a fifteen foot ditch. About one-half  
mile of track is torn up. The wreck-  
ing crew from Antigo is now on the  
scene and is expected to have the  
track ready for service late tonight.

A truck of the Rhinelander Bot-  
tling Works in charge of Thorwald  
Peterson and Bradley Taylor went  
to Malvern at noon and transferred  
all mail and express from the north  
bound and south bound passenger  
trains.

The front of the Schlitz Hotel  
bullet has the appearance of having  
figured in a German bomb explo-  
sion. The plate glass is cracked and  
a generous portion of the wood  
work is in splinters. This damage  
was caused by a runaway team  
which became frightened at an au-  
tomobile Monday noon.

The horses, owned by the Collins  
Lumber Company, were pulling a  
heavy dump cart when the accident  
occurred. Dashing off of Stevens  
street and west on King street the  
frightened animals crashed into the  
Schlitz Hotel front with terrific  
force. J. Edwards, the teamster, prob-  
ably saved himself from serious in-  
jury by jumping from the wagon.  
One of the horses was badly cut by  
broken glass, but will recover.

## ST. MARY'S FAIR NETS OVER \$2,000

St. Mary's bazaar which formally  
opened Wednesday evening with so-  
lides and community singing, termi-  
nated Saturday in a whirlwind fash-  
ion. By 9:15 Saturday evening every-  
thing had been sold. The crowd  
was simply immense, filling the  
spacious armory to capacity. Fully  
one thousand people were present.  
The supper, served three evenings,  
brought in about \$225. On Friday  
the weather was abominable, but  
despite this fact the sum of \$100 was  
realized. The closing day brought  
in over \$650. The total receipts of  
the fair were in excess of \$2,400.  
After all expenses are paid over  
\$200 will remain to be turned into  
the treasury of St. Mary's church.  
This sum will be used in paying off  
some of the parish indebtedness.

A feature of the fair which was a  
winner was a "Ham which am"  
contrivance obtained from the An-  
nular Company through Mr. Kuntz,  
local salesman and Alvin Seltzer.  
This feature alone realized more  
than \$100. The young ladies' so-  
ciety brought in more than \$50  
all told. The other booths, apron  
fair work, and country store were  
pretty well decorated and attracted  
many customers and netted hard-  
some sums. Only one accident, and  
that an insignificant one, occurred  
during the fair which was the col-  
lapse and total destruction of a  
folding chair under the weight of  
Fred J. Annen. A significant fact  
was that the chair gave way just  
as the last mouthful was going  
down.

### BILLIE BURKE HAS SON

Rhinelander movie fans who are  
admirers of Billie Burke, one of the  
routed stars, will be interested to  
learn that she gave birth to a son  
Monday. In private life Miss Burke  
is Mrs. Florence Ziegfeld, Jr.

Mrs. M. R. Douglas of Chicago is  
the guest of Mrs. E. A. Forbes.

C. H. Roepcke, deputy oil inspec-  
tor, is in Tomahawk today.

Attorney Sheldon and party of  
Tomahawk motored to this city to-  
day.

Mrs. Alfred Wilson of Devil's Lake  
is the guest of her parents, Mr. and  
Mrs. H. C. Braeger.

Starting Something.  
Wells—I'm a ruined man. Today,  
when the family were all together, a  
man opened the door and threw in—  
Guns—A bomb? Wells—Worse than  
that, an automobile catalogue.—Ex-  
change.

### Democratic Triumph.

The walking-stick, as we know it at  
present, gained its popularity in  
France during the eighteenth century,  
when it came to be carried by rich  
people who had no right to wear a  
sword. The dandies twirled a thin  
bamboo cane in their fingers, but the  
great financiers—who had consid-  
erable influence at that time—made the  
stick a fashionable addition to their  
wardrobe, and sometimes paid as  
much as 10,000 crowns for one. This  
carrying of a walking-stick was re-  
garded as a democratic triumph over  
the nobility, who refused the com-  
moners the right to wear a sword.—Lon-  
don Chronicle.

### Must Have Taxes Digestion.

The vestal virgins always kept fires  
burning in their temple at Rome, and  
no doubt needed them for heating the  
humble hot water bottles after eating  
the following menu, declared to have  
been a banquet served the girls by Ju-  
lius Caesar: First course, prickly  
globe fish, oysters, thrushes, aspara-  
gus, fattened chickens, oyster patties,  
black and white sea acorns, sea nettles,  
snipe, cotelettes of venison and of wild  
boar, fattened wild game, powdered  
with flour; second course, swine ul-  
cers, wild boar's head, swine udder,  
patties, ducks, boiled teal ducks, roast-  
ed wild game; third course, puddings,  
custards, Picentish sandwiches, wine,  
Falerno, Xeres, Spanish Medow.

### Old English Lotteries.

On October 18, 1826, the last "state  
lottery" was drawn in England. From  
the time of Queen Elizabeth lotteries  
had been common in this country, and  
at the close of the eighteenth century  
they had become established by suc-  
cessive acts of parliament and were  
considered by chancellors of the ex-  
chequer as perfectly legitimate means  
of increasing the revenue. Indeed, at  
the time they were abolished lotteries  
were contributing to the state a sum  
amounting to £300,000 per annum.  
But it was felt that the government  
should no longer participate in an un-  
dertaking which had such a demoraliz-  
ing effect on the people, for this legal-  
ized gambling impoverished many and  
diverted attention from the less excit-  
ing pursuit of making an honest liv-  
ing.—London Chronicle.

### Meaning of the Crescent.

The Turkish crescent, although now  
regarded as essentially Mohammedan  
in significance, was, it appears, of  
Christian origin. A crescent moon  
was the emblem of the Byzantine em-  
pire and of the Eastern church. The  
Turks adopted it as a badge of tri-  
umph after the capture of Constantinople  
in 1453. With reference to  
the crescent, the story of the origin of  
the crescent-shaped Vienna roll is  
worth recalling. It arose in the six-  
teenth century, when the Turks were  
besieging Vienna. Failing to carry it  
by assault, they began to mine the  
walls. At that period the city's bake-  
houses were in the walls under the  
fortifications, and when the mines  
were almost through the sound of the  
work was heard in the underground  
bakehouses and an alarm was given.  
To celebrate this event the bakers of  
Vienna adopted the Turkish emblem  
as the form in which to mold and  
bake their bread.

### "Dorr's Rebellion"

From 1663 the people of Rhode  
Island had lived under a charter grant-  
ed by Charles II, according to which  
only those owning a certain amount  
of property could vote. A desire to  
change this provision arose and in  
1841 two parties were in the field  
the "Suffrage" and the "Law and Or-  
der." Each party determined to con-  
trol affairs. Each elected its own state  
officers. Thomas W. Dorr was chosen  
governor by the "Suffrage" party. He  
took possession of the state arsenal.  
The militia was called and he was  
forced to flee. In a second attempt  
the party was defeated by United  
States troops and Dorr was arrested,  
convicted of treason and sentenced to  
life imprisonment, but soon was re-  
leased. This was Dorr's rebellion.  
A free constitution was adopted by  
the people while Dorr was imprisoned.

### Get Their Share.

Seven communists in Paris during  
the 1848 revolution called on the head  
of the Rothschild house there, remind-  
ing him that now all wealth was to be  
divided and intimated that he better  
get ready. The wily financier pulled  
out a pencil, divided his own wealth  
by the population of France, gave  
each of the committeemen four francs  
and bade them good day.

### Cheerfulness Above Levity.

Between levity and cheerfulness  
there is a wide distinction; the mind  
that is most open to the former is fre-  
quently a stranger to the latter. Levity  
may be the offspring of folly or vice;  
cheerfulness is the natural offspring of  
wisdom and virtue.—Blair.

### Just So.

"I don't see why the bicycle is so  
much more popular than the tricycle.  
I should think it would be much  
steadier and safer." "There's such  
a thing as having an excess of ma-  
terial. Like, for instance, trying to  
walk on three legs."

### A Wet Spot.

With an annual rainfall exceeding  
200 inches, southern Assam is the  
world's wettest region.

Self Possession.  
A man who does not possess him-  
self enough to hear disagreeable things  
without visible marks of anger and  
without sudden bursts of joy or ex-  
pansion of countenance is at the  
mercy of every artful knave or per-  
secutor. The former will provoke or  
please you by design, to catch un-  
guarded words or looks, by which he  
will easily decipher the secrets of your  
heart, of which you should keep tight  
yourself and trust it with no man  
living. The latter will by this art-  
sardity and without intending it pre-  
duce the same discoveries of while  
other people will avail themselves—  
Lord Chesterfield.

Around the Next Bend.  
You have me the cautious advice not  
to waste life, which must be lived, by  
killing time, making him die a dull  
death at bedtime every night, but to  
run hand in hand with him—run where-  
ver he might be going—because things  
worth while might be ready to happen  
around the very next bend of the fu-  
ture.—From "Where the Path Breaks,"  
by Captain Charles de Crespigny.

Clitics for Criminals.  
Clitics for criminals are becoming  
recognized as a valuable adjunct to  
the city courtrooms. Physical defects  
are frequently responsible for the per-  
petration of crime, and remedial mea-  
sures may bring about a complete  
moral change. In Chicago a persist-  
ent offender was recently examined  
by the psychopathic institution and  
advised with the work county juvenile  
court. He was found to be suffering  
from severe, but uncorrected, eye  
strain. When his eyes were treated  
and he was provided with congenial  
occupation, his criminal tendencies  
ceased. A habitual drunkard in  
Cleveland, who had been sent to  
prison 92 times in 20 years, was re-  
cently given a thorough physical ex-  
amination, resulting in an operation  
for a dental disease of long standing.  
His tendency to drunkenness and dis-  
orderly conduct has not been mani-  
fested since.

Qualities Somewhat Rare.  
Perhaps a gentleman is a rarer man  
than some of us think for. Which  
of us can point out many such in his  
circle; men whose aims are generous,  
whose truth is not only constant in  
its kind, but elevated in its degree;  
whose want of manners makes them  
simple, who can see the world hon-  
estly in the face with an equal manly  
sympathy for the great and the small  
—Thackeray.

## LUMBERMAN TO MEET

The Northern Hemlock & Hardwood Lumber Manufacturers' Association, comprising representatives from 23 saw mills in Wisconsin and Northern Michigan will hold their quarterly convention in Milwaukee Friday. New grading rule standards covering the manufacture and sale of the hardwoods of this region will probably be adopted. An Eon Claire, Wis., inventor has perfected a machine which automatically embosses a trade mark and mill number on the end of every board manufactured, an idea which appeals particularly to consumers of lumber. A special committee which has investigated his lumber trade mark will recommend the adoption of the idea by Wisconsin and Michigan manufacturers. J. T. Phillips of Green Bay is president of the organization.

## MOTHERS' DAY AT TRAINING SCHOOL

All week, Miss Schofield, the supervisor of practice, the practice teacher, and the children of the Model Department have been busy getting ready for Mothers' Day which was held this afternoon.

The invitations sent to the mothers were folded in three parts. On the inside the invitations were written and on the outside was the name. To the left and in the corner was a tiny picture of a Jack O'Lantern.

The program for the afternoon was as follows:

Music, Model School

First Reading, Miss Schofield

Second Reading, Ruth Olson

Third Arithmetic, Ethel Anderson

Fourth Geography, Jennie Salminen

After classes there was an informal inspection of the work exhibited in all the rooms. The rooms were decorated with signs of Halloween, namely, cats, owls, bats, witches, brownies, pumpkins, Jack O'Lanterns, that had been made by the pupils of the Model Department. The boards were artistically decorated with drawings. Halloween and fall posters were arranged neatly about the walls.

In one corner of the room stood a sand table, worked so as to represent a Halloween night.

After the inspection, Miss Schofield, Miss Calvert and the practice teachers served tea to the mothers. During tea there were discussions of the work of the pupils and other subjects. The teachers and parents believe this was a very profitable day and there will be another Mothers' Day next quarter.

H. Miner was a town caller Tuesday.

Early Saturday morning fire destroyed the barn owned by Peter Bruse in the rear of Mr. Bruse's residence on Mercer street, together with its contents, which included a Ford automobile. The cause of the fire is not known but it is the presumption that it was set by traps who crept into the barn to sleep. The building was close to the Northwestern railroad tracks and this has also led to the theory that a spark from a passing locomotive started the blaze.

The fire department was promptly on the scene and did effective work in keeping the fire from spreading to adjoining property. Horses housed in the barn were removed without difficulty before the flames had gained headway. Aside from the Ford, a carriage, harnesses, and other equipment were destroyed.
